## **GUEST JURY PRESENTATION**

### **Herbert Wancura**

Mr. Wancura is a mechanical engineer, majoring in automotive and engine engineering. He studied marketing and international management in Graz and Detroit. Since 1993 he has been active as a consultant and entrepreneur in the fields of transport, energy and environment. Mr. Wancura is involved in a number of high tech start-ups, some of which are involved in the field of alternative energy and propulsion systems. He is currently director of ALPPS Fuel Cell Systems GmbH in Graz and Managing Partner of CAP Hydrogen (Austria) GmbH as well as INTEMA Consult GmbH.

Mr. Wancura has been active in EU-matters since 1999 . Since it's founding on March 28, 2007 he is a member of the board and vice chair of the New Energy World Industrial Grouping for Hydrogen and Fuel Cells, which will become the EC's partner for the Hydrogen and Fuel Cell JTI once approved.

Mr. Wancura is lead-author of a number of studies regarding joint public private approaches towards national/regional strategy in the field of Hydrogen and fuel cells. He is a regular presenter at international conferences and holds a number of patents in the fields of energy efficiency as well as hydrogen and fuel cell systems.
